

*'Improving the quality of family life'*

STARS is TfL's accreditation scheme for London schools and nurseries. Snowflake school has taken part in STARS for 10 years and has received a special recognition award in 2014 and the gold accreditation for the last 3 years. STARS inspires young Londoners to travel to school sustainably, actively, responsibly and safely by championing walking, scooting and cycling. We have used STARS for our travel plan and will do so for our new school site in Acton. STARS supports pupils' wellbeing, helps to reduce congestion at the school gates and improve road safety and air quality. Our pupils have always enjoyed taking part and learning from STARS activities. We have junior travel ambassadors in our school and will look forward to having ambassadors in our new site. It is imperative that our pupils learn about road safety and how to cross the road safely. We have taken part in numerous activities such as step counting week;

brighten your bag, poster making competition, smoothie bike, road safety week, scooter training, bike training and pedestrian training. All of these activities and training have helped our pupils become more skilled, confident and knowledgeable road and footpath users. In our secondary site we hope to develop and build on the pupil's prior knowledge so as to assist them for when they are working and taking part in community events and also post 16. Inclusion is a large part of Snowflake School's values and we actively encourage community trips to libraries, museums, parks and shops, as we prepare our pupil's for more independence post 16. STARS activities also work hand in hand with our P.E., Science, PSHE, Cooking, ART, English and Maths curriculum.

During Covid 19 we have planned modifications to the travel plans, adhering to government guidelines; pupils and staff wearing masks and travelling in larger vehicles to adhere to social distancing measures. Pupils have responded confidently to the changes.
